New EPA Rule on Lead Based Paint goes into effect on April 22, 2010

CMPA wants to know how many contractors are interested in the training for USEPA certification. This certification would give this person the ability to work around the disturbed lead paint. Cmpa is contacting a trainer and would like to put on a class, but needs to know the number of persons wanting this certification, for class size and costs. Please e-mail or call Joyce at the Cmpa if you are interested.

CMPA Apprenticeship Committee wants your help!!! The committee wants to know what the contractor wants their apprentice to learn about electric. All contractors currently using the program will receive either a fax or e-mail asking for your input. Please take the time to give us your feedback!!!
